I now feel more comfortable calling the school rather than having the Schools Plus Facilitator calling for me.

I was nervous at first. Now it is a regular part of my classroom routine. It has improved the students' behaviour and we get more done.

One of the best ways of dealing with behavior incidents.

I feel more personal power over what happens in my life now. I have entered into some leadership activities...life is far better than I could have dreamed about a year ago when I was living on the street and dealing drugs.

I feel that I have more control over my life...I know now that I am the kind of person that can make a difference.

Initially I was intimidated to attend the meeting but I found it very valuable and I’m glad I went.
Let me tell you my story.

THANK YOU
